

NEWTOWN DISTRICT DEPARTMENT OF HEALTH

Below is a listing of licensed septic installers who are capable of installing new septic systems as well as repairing existing septic systems. These installers also perform soil testing on new and used lots for the purpose of installation, repair and code-complying area identification.

The Health District cannot make recommendations or endorsements for any of the below mentioned installers. Additional installers are located in the yellow pages under "Septic." This is provided as a service from the Health District and should be used at the property owner's discretion.
