Whereas the Borough's Main Street has been singled out for protection as a central and highly visible non-commercial area in repeated Plans of Conservation and Development² and

Whereas the properties within the Main Street Village District

¹ The first Borough of Newtown Zoning Ordinance (effective January 1, 1932) noted, in its Forward, that "Newtown, and especially its Main Street, is one of the beauty spots of New England. We who have lived here most of our lives and whose forefathers founded this town as well as those people who have been attracted here by its scenic beauty wish to keep it as nearly Colonial as possible.

² The 2014 Update notes that "...Newtown is proud of its central non-commercial Main Street and will keep it preserved."

there is a conflict between the requirements of the Village District Regulations and the regulations applicable to the underlying zone, those in the Village District Regulation will control.

12.01.B (1) The purpose of these regulations is also to protect the Main Street Village Design District, which is comprised of those properties that abut Main Street extending to Johnny Cake Lane and South Main Street and those that abut Church Hill Road on the northerly side between Main Street and Wendover Road within the Borough of Newtown.

12.01.B (2) All properties lying within the Main Street Village Design District shall be subject to and shall conform to the requirements and standards contained in Article 12 of the Borough of Newtown Zoning Regulations, insofar as they are applicable, and shall be subject to Village District review thereunder, provided further that properties in the Main Street Village Design District shall not be required to comply with the curbing, sidewalk and sidewalk lighting requirements contained therein.
