APPLICATION FOR FOREST PRACTICES

Applicant's Name: _____

Applicant's Address: _____

Address of Property: _____

Fee: \$50.00

- Instructions -

This application is for use in connection with forest practice activities. Pursuant to Section 4.1 of the Commission's regulations, a permit is required for any activity not otherwise exempt under Section 3 which may alter the physical characteristics of any forested land including, but not limited to, any activity involving or associated with the cutting of trees or harvesting of forest products. In the context of forest practices activities, operations involving, but not by way of limitation, access, generation of slash, harvesting, yarding and landing areas, fire protection ponds which may affect forested or adjacent land, may not be undertaken without a permit.

This form is intended to apply only to forest practices activities. As to them, it is to be used instead of any other form which may be authorized by the Commission.

All applications shall consist of six (6) copies of the completed form, six (6) copies of all maps and sketches and six (6) copies of all supporting documents.

Attach additional pages as exhibits where space is insufficient to complete any item or items. Answer each question fully and precisely. The commission will not accept the application until all necessary information has been supplied to it.

In addition, the Commission may require such other data and information as it deems necessary to evaluate the application in light of the purposes and policy of its regulations.

All information submitted by the applicant or his agents in connection with any application hereunder shall be considered correct. Failure of the applicant or his agents to provide correct information in connection with any application hereunder which is material to the issuance of a license therefore shall be deemed a violation of these regulations.

The Commission may grant the application with conditions which may include any or all of the following: performance bond, phases for completion of the activity or operation, provisions with respect to access, slash, yarding and landing, sediment and erosion control restoration, etc.

1. Applicant's name, home and business addresses and telephone numbers.

2. If applicant is not the owner of the land to be affected, state applicant's interest in the land, i.e., lessee, licensee, etc.

3. If applicant is not the landowner, list the owner's names and home and business addresses and telephone numbers, and attach their written consent, duly acknowledged, to the proposed activity set forth in the application.

4. Assessor's Map # _____ Block # _____ Lot # _____

a) Is property located in the aquifer protection district? Yes _____ No _____

5. Description of the proposed forest practices activity, the estimated number of acres to be harvested, and the estimated volume of forest products to be harvested.

6. Description of the area in which the forest practices are proposed.

7. The following information shall be shown on the maps or supporting documents:

- a) The area in which the proposed forest practices are to occur.
- b) The boundaries of the applicant's land.
- c) Proposed and existing access roads, skid roads and yarding as areas which are planned to be utilized.
- d) Locations of wetlands and watercourses.

8. State the approximate date for completion. _____

To complete the application, submit the following:

- a. A detailed sedimentation and erosion control plan.
- b. A general description of dimensions, locations, grades, construction and maintenance guidelines for proposed access roads, skid roads, sawmill sites and yarding areas.
- c. A description of all existing and proposed drainage structures such as culverts.
- d. Location and nature of all existing or proposed construction affecting or which may affect a wetland or watercourse.
- e. Detailed Forest Management Practices Plan which must address aesthetic considerations, harvesting methods to be used, wildlife conservation, regeneration, and hours of the day and days of the week during which harvesting will occur.
