

Questions and Answers: Backfill and Hydroseed (Bid #2024-32)

5-9-24

Q: Could provide an idea of a rough square footage of the area of this project, as well as how many different sites work will be taking place?

A: The Town does not have any estimated total quantities or information on the sites for this Bid proposal. The quantities are determined as needed throughout the year based on the varying projects occurring throughout the Town. Bids are to be on a per unit basis. The Town will contact Bidders as needed when a project requires Backfilling and Hydroseeding. Bidders will be notified of the estimated quantity and the site information with the expectation that the job will be performed at the bid unit price. Typical projects include Backfill and Hydroseed of along roadway curb.
