Sue,

I am forwarding an email sent to the lead elected officials in the northwest corner in response to a concern regarding the liability clause. I was told that similar concerns may exist for your selectmen as well. Perhaps this email could be sent out to them ahead of the meeting on Wednesday night. I look forward to seeing you there.

Cathy

Subject: RE: Liability concern with Workforce Investment Board Agreement

I am forwarding an email regarding the question of liability as well as attaching the Excel spreadsheet that calculates the percent of liability based on the relative benefit and proportionate use of each of the municipalities in the region. Should you have any further questions please give me a call.

I would like to offer a few points of information and clarifications prior to the meeting to address your concerns about the liability and the issue of direct oversight.

The Agreement before you is an updated version of the original Agreement that was fully executed by all 41 municipalities in 2003 when the Danbury-Torrington and Greater Waterbury workforce boards merged under the direction of Gov. Rowland. At that time there were 8 workforce development boards (WDB) and the consolidation of 2003 reduced that number to 5 (creating the NRWIB) The Agreement allows the flow of federal and state dollars to assist your constituents with services related to a variety of funds that CT Dept. of Labor receives and passes thru to the NRWIB. Each of the 4 other WDB's have the same Agreement in place among the municipalities in their respective regions.

The issue of direct oversight by the municipalities is addressed in the Agreement through an Executive Committee of Lead Elected Officials that meet at least annually to approve, authorize and/or adopt operating budgets, policies, performance measures, the Local Plan and many other facets of operations. In the last two years, your Executive Committee, currently chaired by Mayor O'Leary, has met 4 times to work with the NRWIB staff to assure that all new regulations under WIOA have been complied with. I would be happy to share the Agendas of these meetings. Further, I will make it a point going forward to notify all lead elected officials of those meetings should you wish to attend.

To the concern of liability – under the federal regulations – should there be loss of grant funds, the NRWIB would be notified of such prior to the loss and planning to address such loss would commence upon notification. As to misappropriation or misuse, there is both a "Director and Officer" policy and well as an "errors and omissions" policy in place. The NRWIB also employs the contractual services of the accounting firm of Shane Navritil, LLC – experts in expenditures of funds under WIOA- to provide guidance. In the last 17 years, audits have never revealed a questioned cost let alone a disallowed cost. Further the NRWIB has unrestricted cash reserves in the amount of \$125,000 to defray any penalties. As to the liability of each member municipality above and beyond the \$125,000 ,the WIOA legislation states that the liability be shared based on proportionate use and relative benefit. In an effort to give you an idea of your towns responsibility we queried a report that shows the numbers of residents in each of the 41 municipalities that have sought services in the last two years under the WIOA funding stream. I have attached that documents for your review as well. By way of example, Warren saw 32 of its residents seek services against the total of 15,677 residents seeking services in the region resulting in a 0.2% share in any potential liability.

I am more than happy to speak and/or meet with you on an individual basis at any time.

Subject: Newtown Community Center and Senior Center Project Update Sessions:
Please help spread the word!

Message:

Dear Legislative Council,
On behalf of the Town and the Community Center Advisory Committee, I am reaching out to ask for help promoting two upcoming Newtown Community Center and Senior Center project update sessions. They will be Saturday, June 9th, from 10-11:30am and Tuesday, June 12, from 7-8:30pm in the Council Chambers at the Newtown Municipal Center. The plan is for "open house" sessions to allow residents to come in when they can to view the most up-to-date plans. To increase the awareness and reach of the events, it would be really helpful if you would share one or all of the following:

- Below is a copy of the Town's "News & Announcements" email that was sent earlier today. Please share to your email lists.
- On the Community Center's FB page, "The Bee" article from yesterday was posted. Please share to your pages (either personal or as an elected official).
- Also on the CC FB page is a FB event for both sessions. Please increase the reach by adding residents to the invite list.

In addition to the online and email communications, a presence will be had on "The Bee's" main page (starting Friday, June 1st), the Town's website will be updated to include information on the sessions, two A-frames with place, date and time will be centrally placed in town, window posters/flyers will be hung at various locations across town, and some houses of worship/churches have agreed to highlight the sessions and/or hang the flyer. With your help, we can reach even more residents and create increased interest in and attendance at the "open house" update sessions. Please email me with any questions or additional reach suggestions

Thank you in advance,
Kinga Walsh

Subject: Comments on Ordinances

To: Ryan Knapp <ryan.w.knapp@gmail.com>

Cc: Paul Lundquist <lundquist.paul@gmail.com>, James McFarland <james@jamesmcfarland.com>, FarmerJim@shorttsfarmandgarden.com

Hey there,

I'd like to share an experience I had while on the Board of Assessment Appeals related to the use of the ordinance for Tax Exemption for Farm Buildings (Chapter 208, Article IX).

In addition, I'd like to provide my 2 cents on a feature of the plastic bag ban.

Tax Exemption for Farm Buildings

During the assessment appeals process, Shortts Farm filed an appeal that, in part, requested the \$50,000 exemption for their retail space where they sold their own products - including crafts made by members of the family during winter, as well as some products from other farmers in the area. The assessor had deemed that the building did not meet the requirement of:

"any building or buildings used actually and exclusively in farming, as defined in Section **1-1** of the Connecticut General Statutes," Note that 1-1(q) defines the term 'farming'.

At issue is the word "exclusively." There have been purses and signs sold in the store. These added items are helpful in drawing people to the farm to shop in the store, and represent a small percentage of items sold.

Given this, the Assessment Appeals Board found itself in a very difficult position. Our interpretation of "exclusively" meant that we had no choice but to deny the application of the exemption for the retail building. In doing so, we (or at least I) felt like we were likely not acting in accordance with the spirit of the ordinance.

Can clarification language be added for such use?

Plastic Bag Ban

Note that my comments are in reference to the information provided in the Bee article:

["https://newtownbee.com/ordinance-panel-digs-into-proposed-plastic-shopping-bag-ban/"](https://newtownbee.com/ordinance-panel-digs-into-proposed-plastic-shopping-bag-ban/) as well as the minutes of April 30.

I understand the merits associated with trying to get people to use fewer "single use" plastic bags. While I am one who finds such bags very useful, I will limit my comments to one aspect: the inclusion of a 10 cent charge per paper bag. I do not understand why 1] we don't trust the retail shops to determine how much the bags cost their businesses and charge accordingly (i.e., the ordinance could say that the retailers must be explicitly pass the added costs for the bags through to the consumer via a "bags charge," to help provide a disincentive for using the bags) and 2] why an additional revenue stream for the town is being added.

Focusing on the latter, I understand that the town could use some of the money for offsetting costs associated with programs and education about recycling and being good stewards of our environment. I also understand that we need more funding for infrastructure. However, is creating an additional revenue stream needed? Wouldn't calling these out in the standard budget process, via the services provided by our town departments, work?

We have many examples in government where added revenue streams have seemed like a good idea. For example, wasn't the lottery supposed to help fund education? The Casinos provide income to the towns? The gas tax help maintain and improve our state transportation infrastructure? Some could say these are all state-level disasters and the town knows better. However, at the town level, we used the unassigned fund for operational needs in the 2000's. And (from what I've been told), we've used the medical self-insured fund - prior to our current one - for funding things other than medical insurance overruns. In our own house, we have examples where we, in truth, have acted as the state is acting now.

While our current leaders may not misuse the funds provided in the stream, future ones may. That is why, in my opinion, it is better to provide any additional funds needed as part of the actual department-level budget process, using revenue streams that already exist as a part of the budget process. In addition to not encumbering stores with having to tally and pay a specialized town-level tax, it keeps things simple, transparent, and helps maintain public trust.

February 1, 2018

Dear Fellow Lead Elected Official,

It is my pleasure to write to you today as the Chair of the Consortium of Chief Elected Officials, created under the Intergovernmental Agreement of Municipalities governing our region's workforce development activities.

In July of 2014, President Obama signed into law the Workforce Innovation and Opportunity Act (WIOA). Since that time, our region's workforce development board, the Northwest Regional Workforce Investment Board (NRWIB), continues to implement new regulations that have served to improve services to employers and jobseekers. As the Hartford Business Journal points out, "Workforce development must be the top priority in 2018". Our region's Workforce Development Board consists of private sector employers representing industry sectors that drive our region's economy as well as state agency partner representatives. Private sector input serves as the driving force behind strategies developed to understand and meet our employers' need is paramount to our regional economic growth.

I have worked closely with both the staff of the NRWIB and the Board members over the last few years. In May of 2017, I traveled to Washington, D.C. and presented, with our Executive Director Cathy Awwad, at a forum on the continued implementation of WIOA and its revised regulations. As part of the revised regulations, it is now required that we, as the forty-one municipalities that comprise the Northwest region, re-execute the Intergovernmental Agreement.

I have reviewed the enclosed Agreement and it complies with the U.S. Department of Labor requirements. I ask that you too review this document and execute it. Your municipality may require that this Intergovernmental Agreement be approved by your legislative body prior to your signing. Should this be the case, the staff at NRWIB will be happy to attend any meeting during which this approval process may occur. They will answer any questions you or your legislative body may have regarding the language in and services made available through this Agreement.

Workforce development is primary among the issues facing Connecticut's economic recovery. I ask you to give your attention to this time-sensitive document so that we may continue to move forward with meeting the needs of our region's employers and our constituent jobseekers.

Should you have any questions regarding this Agreement or the workforce services available to our region, please contact Cathy Awwad, Executive Director of the Northwest Regional Workforce Investment Board.

Regards,

Mayor Neil M. O'Leary

A resolution approving a \$700,000 emergency appropriation, initiated by the Legislative Council, increasing the Transfer Out - Capital and Non-Recurring account in the general fund. This \$700,000 emergency appropriation will be funded by the use of Fund Balance (in the general fund).

Estimates for the cleanup costs relating to the most recent storm are \$1,000,000. This includes over time and contractual services costs (for the most part). This \$700,000 emergency appropriation will provide most of the required funds to the Capital and Non-Recurring Fund. The remaining funds will come from a general fund appropriation transfer request for \$300,000 currently going through the approval process.

If a FEMA reimbursement program grant is received the funds will be used to reimburse the general fund, fund balance and replace any appropriation transferred that is deemed necessary (such as road funds used).

RE: The Transfer of Uncollectible Motor Vehicle Tax Accounts, Personal Property Tax Accounts, and Real Estate Tax Accounts to the Suspense Tax List for your consideration and approval.

The Connecticut State Statutes require that at least once a year the Tax Collector of each municipality shall deliver to the Board of Finance or similar board a listing of all accounts that the Tax Collector believes to be uncollectible. These accounts are then transferred from the regular accounts-receivable to the Suspense Tax Book.

This transfer does not void the tax. If at any time in the future the Tax Collector is able to collect the taxes on the suspense tax list, she shall do so with all the usual interest charges.

The Tax office ceases to send out quarterly bills for these accounts, but in reference to the Motor Vehicle Suspense Accounts, those persons cannot register a car in the State of Connecticut until the taxes are paid to the Town of Newtown.
