COMMUNICATIONS- None

PUBLIC PARTICIPATION- A member of our community- Trey Hazard, 10 Arthur’s Court, attended to voice his concerns of comments made by fire personnel in the Newtown Bee article regarding the warehouse project in Hawleyville off exit 9. He said that it was stated in the article that there were no communities or businesses in the immediate area, Mr. Hazard stated that Liberty, Maplewoods, Newtown Woods and 2 schools are located within a one mile radius and he feels they are too close.

Chief Bill Halstead responded by saying that his comments were talking about the general area right around that parcel of land being proposed for the warehouse.

Chairman Reilly thanked Mr. Hazard for his input. Chairman Reilly stated that in recent articles, residents commented that the emergency services in town might not be able to handle a building of that size. Chairman Reilly indicated he believed the volunteers of the Newtown Fire Departments have the resources to handle a fire at the proposed warehouse.

Trey Hazard thanked the Emergency responder for their service to the town.

STANDING COMMITTEES

PPE & Policy – Jay read an email from Brian Sharnick:
As an update I finally made contact with Patrice today over the town physician and she confirmed what we already knew that the town no longer has a relationship with Dr. Leicht and the town utilizes Physician One for all of their needs including BBP/Exposure issues.

That being said we still need to fill the void for a town physician to review private physicals as well as cancer screening. If all in agreement I propose we have another call with Physician One to go through Below points:

1) They can accommodate our BBP/Exposure needs and we update that Policy Accordingly.
2) Get their input on blood draws for the new One Test Cancer Screening & their ability to possibly offer this as a service
3) Get their input on reviewing & approving 3rd party physicals performed outside their facilities to make sure they are up to the standard and cover town’s liability.

Looking for a Doctor or Urgent Care to be the lead on our Blood borne pathogens and to oversee FD cancer screening etc.
