TOWN OF NEWTOWN
Office of the Fire Marshal

To: All Building Contractors

From: Richard Frampton

Subject: Outside Burning at Construction Sites

Section 22a-174 of the Connecticut General Statutes is the enabling legislation which governs the administrative regulations for the control of open burning. These regulations empower the local open burning official to only issue permits to any resident of the Town to dispose of brush on property where he resides. This means that if there is no residential structure occupied on the property, a permit cannot be issued. Owners or contractors wishing to burn brush on vacant land or construction sites cannot be issued permits. In such circumstances, the brush should be piled to one side of the property and burned when there is an occupied residential structure on the site. Burning permits for brush only are issued by the Fire Marshal’s Office from November 1 through April 1. Owners or contractors should contact the Fire Marshal’s Office for conditions of burning as set forth in the regulations.

**No burning of construction materials at construction sites in the Town of Newtown is permitted.** Debris should be piled into a dumpster and disposed of properly.

**Should the fire department be called to a construction site for a fire it will be extinguished, and the contractor may be arrested for burning without a permit. The contractor will also be billed a set amount by the fire department for the responses and extinguishment.**

Your signature on this letter acknowledges your receipt of the above information.
